

Job Posting: Architecture + Design Faculty (one position)

About GSA

Kentucky's Governor's School for the Arts (GSA) is an immersive residential summer program that empowers the Commonwealth's next generation of creative leaders. The GSA summer program convenes a community of high school rising juniors and seniors from across the state to live in residency for three weeks of intensive college-level training under the guidance of a faculty of professional teaching artists.

At its core, GSA is a youth empowerment program; we strive to affirm, inspire, and uplift our students toward embracing their identity, power, and potential as artists. The program emphasizes interdisciplinary collaboration, the impact that artist-citizens can make in their communities, and accessible college/career pathways that leverage students' creative gifts.

Students are selected through a competitive application process in one of GSA's nine core artforms: Architecture + Design, Creative Writing, Dance, Drama, Film + Photography, Instrumental Music, Musical Theatre, Visual Art, and Vocal Music. The program represents a partnership between Kentucky's Tourism, Arts, & Heritage Cabinet and Kentucky Performing Arts, a non-profit organization based in Louisville, KY with a statewide mission. The summer program doubled in size last year and will accept a total of over 500 students for two separate summer sessions in 2023.

About GSA's Architecture + Design Program

GSA's Architecture + Design program accepts students interested in architecture, interior design, product design, graphic design, fashion design, or other related design interests. Students are introduced to ideas, processes, and techniques applied in many design fields while at GSA. The goal of the program is to provide the framework within which students can explore the social, cultural, spatial, environmental, and abstract concepts that affect design. Project assignments focus on developing creative and analytical thought that is adaptable after GSA. Design thinking is introduced through a series of projects, which include drawing, sculpture, and digital media exercises, as part of an iterative process. The studio curriculum is supplemented with discussions, critiques, notable examples, cross disciplinary works, field trips, and guest artists - allowing students to observe and discuss design critically. Student work is curated for a public exhibition on the final day of GSA and prepared for collegiate portfolios.

We anticipate that many of our students will have varying backgrounds, interest, and experience levels outside or in addition to the fields of architecture and design. Previous experience with architecture and design is not necessarily required for student applicants.
